About VSOE2021

The VSOE committee is pleased to announce that the second Symposium, focusing on the theme of "Sustainable Energy and Marine Planning", will take place in Ho Chi Minh City, Vietnam, on 22-24 April 2021. The objective of VSOE2021 is to promote the sustainable use of our marine resources while ensuring the health of the ecosystem as well as the effective management of marine activities including energy production and infrastructures.

Following VSOE2018's success, VSOE2021 continues providing a platform for participants to exchange knowledge and experience gained recently in offshore engineering, technology innovations, and marine spatial plan to achieve the goal of economic, reliable and sustainable solutions for offshore energy development, and ecosystem-based management of the marine environment.

VSOE2021 welcomes all researchers, practitioners, policymakers, and entrepreneurs to the Symposium to discuss and advance technology and policy changes toward renewable energy, as well as to generate business opportunities in offshore energy, both domestically in Vietnam and globally.

TOPICS

- Site Characterization and Ground Modelling
- Design of Offshore Foundations and Structures
- Performance of Offshore Foundations and Structures
- Life Extension and Decommissioning of Offshore Facilities
- Fossil Energy: Technology Opportunities and Challenges
- Offshore Renewable Energy Systems
- Marine Spatial Planning
- Design Standards, Risk and Reliability

KEY DATES

- **July 10, 2020:** deadline for abstracts
- **July 31, 2020:** acceptance of abstracts
- **October 15, 2020:** deadline for full papers
- **November 15, 2020:** acceptance of full papers
- **April 22-24, 2021:** Symposium

CHAIRMEN

- Dr **DOAN Dinh Hong**, Subsea7, France
- Dr **LE Minh Phuong**, Ho Chi Minh City University of Technology, Vietnam
- Dr **TA Dinh Thi**, Vietnam Administration of Seas and Islands, Vietnam
